LITTLE ITEMS OF LOCAL INTEREST

A number of the Carbon people motored to Dry Canyon on Sunday afternoon to spend the day picnicking.

F. Seymour and J. A. Toombs motored to Drumheller on Sunday afternoon.

Complaints have been to the secretary of the Golf Club that a number of children are playing on the course and hindering other players from their game. A fee of \$1.00 has been set for junior players and steps will be made to collect same if the offenders do not abide by the rules of the Club.

Mr. McLean, public school inspector, was in town over the week end and inspected the local school on Monday.

Dr. H.G. Dunbar, Dentist, will be in Carbon June 21st to 25th inclusive. 25 years experience in every branch of dental technique.

Born, to Mr. and Mrs. Kuisley on Sunday, June 5, a son.

Miss Kate Ramsay arrived home from Calgary on Monday.

C. McPherson and J.A. Toombs motored to Calgary on Tuesday.

A. Davis, of the Bank of Montreal staff, left on Saturday for a two weeks holiday, which he will spend in Calgary and Edmonton.

Miss Jean Hoffort is visiting with friends in Beiseker this week.

Mrs. Hill and daughter, Gladys, left on Tuesday to spend the summer in Kimberley, B.C.

Mr. and Mrs. Wertz motored to Calgary on Tuesday to attend the graduation exercises of those who recently graduated from the Holy Cross Hospital.

Bruce Ramsay returned to Carbon on Sunday after spending the past term at the Normal school in Calgary.

Miss Olive Heinz leaves today for her home in Saskatchewan.

Percy Edwards is the proud owner of a new Nash Sedan.

There is about eight feet of water below the dam in the creek and quite a number of bathers are to be seen there every day.

For Sale Cheap. Pair of buggy shafts and set of single driving harness. Both in good repair. Apply to Box 230 or Chronicle Office.

Mrs. F. Ewing of Irricana, is the guest of Mrs. Torrance this week.

Jas. McLeod, G. Tutt and Jack

Diamond Jubilee Inspires Song

At The Canada Jubilee

WALTZ SONG

By GORDON V. THOMPSON

Writer of "When We Wield Up The Work On The Road" "When Your Boy Comes Back To You," etc.

GORDON V. THOMPSON.

Canada's Diamond Jubilee has been the inspiration that led to the writing of a new Canadian song "At The Canada Jubilee" which has recently been published to commemorate the sixtieth year of confederation.

Its composer, Gordon V. Thompson, has already established the reputation of being one of Canada's leading song writers. His popular war songs composed and published during the stirring days of 1914-18 are well-known. There are few who do not know by heart the airs of "When Jack Comes Back", "Khaki" or "When Your Boy Comes Back to You", three patriotic songs in particular composed by Mr. Thompson during the War.

Mr. Thompson composed this new song recently while staying at the Chateau Frontenac at Quebec. Here at the very birthplace of Canadian history Mr. Thompson felt the urge to write something that would express the joy of Canadians at the coming great event. Having produced "At the Canada Jubilee" Mr. Thompson felt that another song, expressing the optimistic sentiments of Canadians, would be exceedingly appropriate. "Land of Glad To-Morrows" was the result of this inspiration which the composer feels expresses something of the optimism for the future throughout Canada at the present time.

Black spent the week end in Calgary.

Geo. Malton has purchased a new Chevrolet truck.

At the Village Council meeting held on Monday night the rate of taxation was set at 25 mills on the dollar. The roads around the Village are to be gone over and the bad spots gravelled, the contract for this work being given to E. S. Hesselgrave.

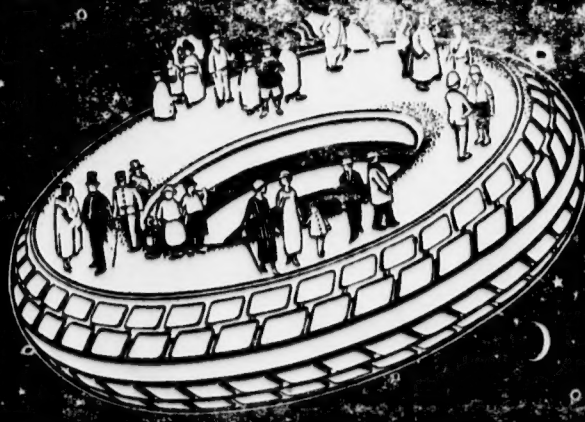

Miss Mae Williams and A. H. Jealous motored into Calgary on Sunday.

The Chautauqua is over. The tent is packed and gone, and all the people of Carbon and district have enjoyed one of the best and most successful entertainments that has ever come to Carbon on the Chautauqua Circuit. The program this year has been exceedingly excellent both in entertainment and culture. And more than that; the people of this district have taken such a keen interest in the performances that the list of guarantors has been raised to 50, as compared with 33 last year. So Carbon is well assured that this great entertainment will visit it next year.

The Post Office Department advises that permission has been granted to the Western Canada Airways, Limited, or its agents, to operate an air mail service between Rolling Portage, Ontario, and the Red Lake mining area, and convey such mail as is offered for conveyance by this service. The requirements are: (1) The words "By air mail" to be prominently written on the address side; (2) The usual Canadian postage be affixed on the address side; (3) The "Air mail stamp" to be placed on the reverse side.

E. W. Beatty, Chairman and President of the Canadian Pacific Railway, has offered \$3,000 in prizes for the 1928 musical festival to be held at the Chateau Frontenac, Quebec. The Folksong festival recently concluded at the Ancient Capital was an outstanding musical success, being carried out for the first time. The prizes offered by Mr. Beatty will be for musical competitions based on French-Canadian chansons populaires and folk melodies. J. Murray Gibson, Canadian author, who has translated many old French-Canadian folk songs, is largely responsible for the success of the recent Festival at Quebec. Judging from press comments in all parts of the continent these old songs of French Canada are fast gaining in popularity.

RED ROSE ORANGE PEKOE is extra good.

The Spirit of Jubilee

It is now clearly manifest that the celebration of Canada's Diamond Jubilee will be general throughout the Dominion, and that the ceremonies marking this historic occasion will be colorful, entertaining and instructive as befits the sixtieth anniversary of a nation's birth. The columns of every daily and weekly paper, however small the latter may be, tell the same story of the holding of public meetings and the appointment of committees of representative citizens to plan a fitting celebration on July 1st and the succeeding two days. It is quite evident that it will be a very unprogressive and poor-spirited community which fails to commemorate the inauguration of the Dominion.

The very general interest being displayed is a gratifying evidence of the pride which Canadians have come to have in their country. It is an evidence of a real national spirit. Equally gratifying is the way in which local communities throughout the Dominion have accepted the lead of the National Committee and are planning to make Dominion Day celebrations truly commemorative of Confederation, rather than merely days of sporting events. Generally speaking, the ceremonies on July 1st will be patriotic and historical in character, while on July 2nd also a national holiday in this Jubilee year sports and other programmes will be carried out.

Time, energy and money spent in organizing truly worth-while commemorative ceremonies will be well expended only if the true, underlying spirit of the Jubilee is never lost sight of, but on the contrary, is strongly emphasized. It is urged that every celebration on July 1st should have "a clear, strong, dominant note of patriotism, directing the hearts and minds of all to Canada." Particularly is it desired that in all Dominion Day ceremonies the most prominent place be given to the children of Canada.

The Jubilee ceremonies should very properly recall the condition of Canada prior to 1867, the lack of unity then existing, the suspicions entertained, the doubts and fears for the future which prevailed. It should be remembered that Confederation was devised to overcome these conditions, to find a solution for the existing problems and difficulties. We should as a people relive in our memories the patriotism, the vision, the self-sacrifice of the Fathers of Confederation who forgot all differences of party, of racial descent, of creed, in order to render service to Canada and the Empire. The spirit of the Fathers should be the spirit of this Diamond Jubilee.

Confederation brought union and strength out of disunion and weakness. It has replaced doubts and fears with confidence; discouragement has given place to courage and a justifiable pride. The achievements of the Canadian people in the succeeding sixty years are without a parallel in the history of the world. They have spanned and re-spanned a continent with bands of steel; they have created a strong and united nation out of isolated colonies; they have placed their flag on the seven seas, and carried their commerce to the uttermost parts of the globe; even in the fiery ordeal of the world's greatest war they took second place to no other people, but by their self-sacrifice and unrelenting labor won the admiration of all men and won for Canada a place of equality with the world's greatest and proudest nations.

But Confederation made more than all this possible. It has resulted in revealing the people of Canada to themselves. In working together in the solution of great national problems, in carrying through gigantic enterprises to success, and in devoting their energies to the development of some of the greatest natural resources possessed by any land, they have learned each others good qualities. They have given to the world a great object lesson of how two races, differing in language and in religion, can exercise tolerance and forbearance, and, appreciating the contribution which each has to make for the common good, unite to lay the foundations of a united state, progressive, prosperous and happy.

Recalling the difficulties and achievements of the past, glorying in the present, the real celebration of the Jubilee will be found in a re-affirmation of loyalty and a re-dedication of service to Canada on the part of individual Canadian citizens. This is the true, underlying spirit of Canada's Diamond Jubilee.

Northern B.C. Minerals

A force of engineers of the National Lead Company of New York will invade Northern British Columbia this month to investigate lead and other mineral properties. If their reports are favorable the company will likely become interested and engaged in mining. The Portland Canal and Alice Arm will be visited first, after which the party will go to Terrace and other points along the Prince Rupert line of the Canadian National Railway.

White States in Empire

There are six great white states of the British Empire on the Pacific coast, one in Canada, five in Australia. These Empire Pacific states are larger and more populous than the four Pacific states of the United States. Canada alone is nearly as large as all Europe. It is larger than the United States with all its possessions.

Don't get too fresh. Remember what happened to Mrs. Lot.

Druggist Gave Her Advice

Miss Ruth Horowitz, Bronx, N. Y., writes: "Having been troubled with indigestion caused by constipation for several months, my druggist advised me to try CARTER'S LITTLE LIVER PILLS. He said they are good for a hundred different ailments, if people only know the value of them. I can safely say that since I am taking them, and only one each night, I feel like myself again and can eat most anything."

Those who suffer from sick headache, indigestion, biliousness, tired-out and aches feeling, when due to constipation, will find relief in taking CARTER'S LITTLE LIVER PILLS.

CARTER'S LITTLE LIVER PILLS in red packages, 25c. and 75c. Try them tonight. Tomorrow refreshed. All druggists.

Veteran Missionary Dead

Late Father Cochon Was Prisoner of Indians in Rebellion of 1885

Rev. Fr. Louis Cochon, O.M.I., veteran missionary among the Cree Indians, one-time prisoner in the camp of Poundmaker during the uprising of 1885, died at Battleford recently at the age of 71. One of the outstanding achievements of his career was his work in connection with the surrender of Poundmaker, the Indian chief, and peace parleys which followed.

Fr. Cochon joined the Oblate Order of priests when a young man in France, and following his ordination to the priesthood, came to the northwest, taking up missionary work among the Indians immediately on his arrival.

Home Not Complete Without Nerviline

When your stomach is badly upset, when you are belching gas and suffering from nausea, the quickest relief will come from 20 drops of Nerviline. Take it in sweetened water and you get an immediate result. Nerviline has been used for nearly half a century and is considered a necessity in most houses, because of its usefulness in preventing many small ills that constantly arise. Sold everywhere in 35 cent bottles.

Northern Grown Seed

Striking Success is Obtained With Canadian Alfalfa Seed

The superior quality of northern seed is nowhere more strikingly shown than in the success obtained with Canadian alfalfa seed. For a long time it was difficult to grow alfalfa successfully in many parts of Canada, but the development of an ample supply of hardy strains of seed has, to a certain extent, solved the problem of winter-killing and the Dominion's alfalfa crop increased from 228,000 acres in 1920 to 858,000 acres in 1926.

Sodium Sulphate

Large Deposits Have Been Located in Western Canada

In Canada sodium sulphate, in the form of salt cake, finds its largest use in the pulp and paper industry, and is also employed in the metallurgical, glass, dye, textile and other industries. Eighty-three occurrences of natural deposits of sodium sulphate have been located in Western Canada, principally in Saskatchewan, and an investigation of 21 of these by the Dominion Department of Mines shows the presence of over 115,000,000 tons of hydrous salts, mainly sodium sulphate.

Milke's Worm Powders not only make the infantile system untenable for worms, but by their action on the stomach, liver and bowels they correct such troubles as lack of appetite, biliousness and other internal disorders that the worms create. Children thrive upon them and no matter what condition their worm-infested stomachs may be in, they will show improvement as soon as the treatment begins.

Lobster Canners

There are about 500 lobster canneries in Canada employing nearly 7,000 people. The normal catch of lobsters amounts to about 35,000,000 pounds.

Cheapest of all Oils. Considering the qualities of Dr. Thomas' Electric Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast and all country merchants keep it for sale. So, being easily procurable and extremely moderate in price, no one should be without a bottle of it.

Heads Geology Department

Dr. T. S. DeLury, who has been on the staff of the University of Manitoba, has been appointed to the head of the department of geology, which has been established by the University of Saskatchewan. Dr. DeLury had done a great deal of investigational work in the mineral areas of Manitoba.

Greenhouses for Lethbridge

At a cost expected to run to the neighborhood of \$12,000, ultimately, a shed has just been broken for the erection of four large greenhouses in Lethbridge by the Terrill Floral Co. The company intends adding from time to time as business warrants.

Canadian Art in Paris

Exhibition of Canadian Paintings Praised by French Critics

From Charles Stewart, the Paris correspondent of the New York World, comes this comment on the most recent collection of Canadian art in Paris. He says:

"The exhibition of Canadian paintings sent over to Paris under the auspices of the Fine Arts Commissions of Canada came into the dingy galleries of the Tuilleries annex of the Luxembourg Museum like a fresh breeze of wind from the open spaces of the great Northwest. And it is thus that these works of art have been acclaimed by the French critics. There is much excellence in individual efforts and the show as a whole is of a high order of merit. The greater proportion of the 200 canvases exhibited consists of decorative landscapes, among which 'A March Afternoon' and three other paintings by Maurice Cullen are conspicuous by their brilliancy, as are the vividly colored snow scenes by Clarence A. Gagnon. 'The magic of the feminine form divine,' says one of the critics, 'spiritualized through the eyes of the artist does not seem to appeal to the austerity of the Canadian painter.'

During the more turbulent storms at sea, waves reach heights ranging from 20 to 50 feet. The highest wave of which there is any reliable report was 80 feet, in 1922.

Hemp for Fibre

Tests completed recently demonstrate that hemp for fibre can be grown very successfully in many parts of Canada.

They Can Be Taken By Old And Young Alike

Saskatchewan Lady is Very Enthusiastic About Dodd's Kidney Pills

Mrs. E. M. Tatton Gave Them to Her Little Boy, Who Was Suffering From Urinary Trouble.

Waldron, Sask. (Special)—"Ever since my little boy was born he has suffered with involuntary urination," writes Mrs. E. M. Tatton, a well-known resident of this place. "I thought he would grow out of this, but he did not do so. At times I thought it was pure laziness and used to spank him, until I discovered it was not the child's fault, but kidney weakness. I tried Dodd's Kidney Pills with great success, and he is never troubled now. My husband and I use them frequently whenever we have pains in the back."

Dodd's Kidney Pills have become a family remedy because people have tried them and found them good. They help Rheumatism, Lumbago, Diabetes, Lame Back, Heart Disease and Urinary troubles, because all of these are either kidney diseases or are caused by the kidneys failing to do their work.

Measure a man by his everyday conduct rather than by his extraordinary exertions.

You will really enjoy using

DUCO

IT'S not like the old painting job that I had to be carefully guarded for days before it was dry.

With DUCO there are no long waits before you can get your home back in shape after painting. The amazing quickness with which DUCO dries makes it indispensable for brightening up the home, and like the DUCO finish on fine automobiles and furniture it wears and wears and wears.

Good dealers everywhere can supply DUCO in a wide range of colors, Clear DUCO and four beautiful Stains.

There is only ONE DUCO—DUPONT DUCO

THE NEWSPAPER AND THE COMMUNITY

Everywhere there is a growing understanding among the business men that the newspaper, while an individual business problem of some publisher, is, at the same time, a community proposition—a community asset. The newspaper serves the community more than the man who publishes it. The time is coming when everywhere business men will feel personal interest in a newspaper's welfare. The fact has been shown that a community cannot make progress without it. It can exist, but cannot grow. With this realization there has also come an understanding that one newspaper serves better than two or three. It has become a simple problem of business mathematics to center the strength of a community behind the newspaper that has made itself, through work and service, the strongest journalistic factor in community development. So far as Canadian newspapers are concerned there have gone out of business since 1914 55 daily newspapers while 260 weekly newspapers have suspended publication or been absorbed by the other paper in the town. The announcement of newspaper consolidations will continue. The results will be better and more outstanding weekly papers with improved service to advertisers, subscribers and the community generally.

We received two dollars the other day from a good subscriber and it was accompanied by the following note: "If Editor in Latin means something to eat, two green backs in any language has the same meaning." Thanks, J.W.G. We only wish that a few more of our subscribers would realize that the Editor has to eat to live the same as anyone else.

Driven by over-population to eating bark of trees and seaweed from the ocean, the wild goats of Guadalupe Island are changing their habits and, in some respects, their form. They are learning to climb leaning trees in search of foliage.

According to recent game regulations in the Province of Alberta, prairie chicken, grouse, partridge, greater and lesser yellow legs, black breasted and golden plover, are now on the protected list, while the ban on Hungarian partridge, north of the North Saskatchewan River, has been lifted.

It has been announced by Premier Ferguson, of Ontario, that the Government proposes to foster the creation of an industrial research institution with an endowment of \$2,000,000 for the purpose of solving scientific problems of production and process for Canadian industries.

While on a tour of the Maritimes recently, Dr. F. T. Wahlen, chief of the seed branch of the Department of Agriculture at Ottawa, was of the opinion that a great deal more of the seed used in these provinces should be grown on their own farms. The seed is very hardy, he declared, and, with proper care, a market could be established in the northern states of the Union, and the crop profitably disposed of.

The versatility of the seaplane was ably demonstrated recently. C. F. Tennefoss, a Swedish sea captain, with urgent business in Shanghai, was taken from the Canadian Pacific Toronto Express at Mission City, B.C., and rushed by seaplane to the outer wharf at Vancouver, where he caught the flagship of the Canadian Pacific fleet, the "Empress of Canada" for the Orient. The seaplane was landed on the Fraser River within easy reach of the depot.

The season for bass fishing in Ontario, with the exceptions of the St. Lawrence and the Ottawa Rivers, has been shortened this year by about a fortnight, opening July 1 and ending November 20, according to information given out by the tourist department of the Canadian Pacific Railway. This action was taken by the Ontario Provincial Government when it was found out that bass had not finished spawning when the season opened June 16 in previous years. The same ruling applies to muscalunge fishing in Ontario this year.

Jimmie asked a Jewish friend the other day how many seasons they had in New York and he replied: "Ve haf two, slack and busy."

The preacher was out on the golf links and thought a small moral lesson might not be amiss. "I noticed," he remarked mild-

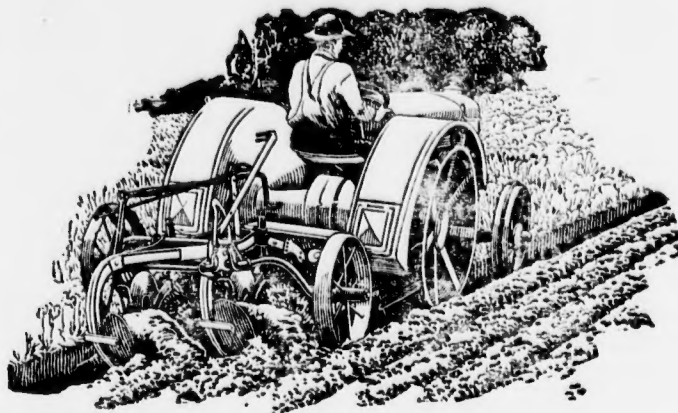

ly, "that the players who get the lowest scores are not those who swear."

"Why in hell should they?" snorted Jack as he dug up another slice of turf.

Edgar: Do you know the difference between trying to kiss you and trying to kiss Mary Jones?

Kathleen: I'll bite. Edgar: Exactly, and she won't.

"John, John," whispered the alarmed wife. "wake up John! There are burglars in the pantry and they are eating my pies." "What do we care," mumbled John, rolling over, "so long as they don't die in the house."

Timely Work

Have you more plowing to do this Spring because wet weather hindered you last Fall?

You can do all the work you plan and on time with a Fordson.

Here's what a Fordson will do—

Plow 5 to 8 acres a day
Double Disc 15 to 25 acres a day
Cultivate 15 to 25 acres a day
Harrow up to 50 acres a day

Your 1927 farm profits depend on getting your crops in on time. Let us demonstrate a Fordson on your farm without obligation to you.

WORLD HAPPENINGS BRIEFLY TOLD

The text of the South African nationality and flag bill has just been passed. The bill provides that the Union Jack shall be flown in connection with the new flag.

The smallpox record for 1926 once again gives the United States the unenviable distinction of having reported more cases of this preventable disease than any other country outside of Asia.

The Prince of Wales and Premier Baldwin probably will sail for Canada July 23 aboard the S.S. Empress of Australia. It is understood that the Premier expects to return August 17. The Prince will stay two or three weeks longer.

A number of foreign troops engaged in a fracas at a cafe in Shanghai, China, and after it was all over the police reported that British, Italian, French and United States soldiers and sailors were suffering from bruised heads.

The London Daily Telegraph's Melbourne correspondent states that the Australian export of apples this year is the lowest in 20 years. The exports reached 1,439,000 cases, of which almost a million cases have been sent to Britain compared with 3,250,000 cases exported last year.

THE BEST MEDICINE SHE EVER USED

Dr. Williams' Pink Pills Highly Praised by a Quebec Lady

Mrs. David Logan, Bedford Mines, Que., gives unstinted praise to Dr. Williams' Pink Pills for the good they have done in her family. Mrs. Logan says: "I have been a user of Dr. Williams' Pink Pills for many years, as occasion required, and have always found them a most reliable medicine. My husband, who was recovering from an attack of typhoid fever, and was in a very weak condition, took the pills, and through them gained health and strength. My daughter was in a run-down condition, and was forced to discontinue work. Again Dr. Williams' Pink Pills were resorted to and she was soon restored to excellent health. Then my eldest boy had an operation performed for adenoids, which left him in a weakened condition. Once more Dr. Williams' Pink Pills were tried, and he was soon in excellent health. So I can truly say that more than satisfaction has been obtained by the use of this medicine. The pills have done more good in my home than hundreds of dollars worth of more expensive medicines."

Dr. Williams' Pink Pills assist digestion, correct the lassitude, the palpitation of the heart, shaky nerves and the pallor of the face and lips that are the results of thin, impure blood.

"You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Canada Is Centre For Paper Trade. Canada's exports of paper exceed those of any other country in the world, and in the matter of newsprint paper her exports are probably greater than those of the rest of the world combined.

Personal Comment

By Mrs. E. Johnson

Bell Grove, N. B.—"I became very weak and could not do my work. My nerves were very bad—in fact, I did not care if I lived or not. I also suffered with indigestion. I was getting pretty badly discouraged when a friend advised me to use Dr. Pierce's Favorite Prescription, and I am very glad to say it helped me right from the start. Now I am feeling like a new person. I will always recommend Dr. Pierce's medicine after this. I give permission to publish this letter trusting it may be the means of helping some other sufferer back to health."—(Signed) Mrs. Elizabeth Johnson.

Just ask your nearest druggist for this "Prescription" of Dr. Pierce's in tablet or liquid form.

Write Dr. Pierce, President Invalids' Hotel, Buffalo, N. Y., if you want free medical advice.

W. N. T. 1682

Prohibition In U.S.

Ramsay MacDonald Believes it is a Great and Praiseworthy Effort

Ramsay MacDonald, former British Prime Minister, after completing a month's visit to the United States, believes prohibition is a "great praiseworthy effort to keep people decent and does not merit the sneers of visitors who find it a subject for smartness."

"So many of our smart people have been over here and sneered at the law, but when I go back I am going to take the other side," he said.

"Two things have touched me very much: first, the very cordial greeting I received from the press of all colors and parties in the United States, and second, the great personal care I had during the three weeks of my illness."

"I am tremendously impressed with the need of America and Great Britain to understand each other. I do not want alliances; I don't want agreements; I don't want entanglements of any kind, but I do want understanding."

"It is essential that the best type of Britisher and the best type of American should come together. There is so much smart flashiness, jazz dancing and huge society ignorance from both sides and being taken on both sides as representative, that men and women of good will ought to work hard to reveal the more permanent good qualities of each other."

Flares Temper Straight Silhouette

This frock, although of tailored genre diverges from severe simplicity in a new way. The flare at the left side of the skirt is smart and graceful. The collar is convertible, and the front closing is of the diagonal type, long rolling revers ending in a pointed rib. The back is plain, and the tailored sleeves are finished with trim little cuffs. No. 1294 is for ladies and is in sizes 34, 36, 40 and 44 inches bust. Size 38 bust requires 5 1/2 yards 29-inch, or 4 yards 34-inch material. Price 29 cents.

Many styles of smart appeal may be found in our new Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book, 10 cents the copy.

For all pain—Minard's Liniment.

Time-Saving Way of Tinting

For perfect tinting of dignity under wear, dresses, etc., the easiest way—and by far the best way—is the use of real dye. It tints in cold water, you know; just dip the garment and it takes whatever tinge you wish to give it. A matter of minutes.

Real dyes will get such smooth and even tones as shame the streaky, wispy washy work of synthetic preparations for the purpose! Diamond dye in original powder form is only fifteen cents at the drugstore. Do your own tinting. Then dip to tint—and you'll have an effect that's beautiful. And if you want the tint permanent, just use boiling water.

Diamond dyes do a perfect, "professional" job of dyeing, too; the druggist has sample shades and simple directions. For a book of endless suggestions, in full color, request a free copy of Color Craft of DIAMOND DYES, Dept. N32, Windsor, Ontario.

Diamond Dyes

Dip to TINT—Boil to DYE

Another Valuable Discovery

Scientists Devise System to Measure Speed of Blood in Body

The speed with which the blood travels through the body can now be measured by a system devised by Dr. Herman Blumgart and Dr. Soma Weiss, of the Thorndike Memorial Laboratory of the Boston City Hospital.

Physicians say the method will be of great value in diagnosing and treating diseases of the heart and circulation system. Attending physicians can now determine accurately just how much of its work the heart is doing. In a statement today, Doctors Blumgart and Weiss describe their system as follows:

"A minute amount of a radioactive substance is injected into the veins of one arm and by means of an electrical detecting device the time of arrival at various parts of the body is noted. The speed with which this radioactive substance is transmitted by the blood gives a measure of the speed of the blood stream."

Could Hardly Live for Asthma. writes one man who after years of suffering has found complete relief through Dr. J. D. Kellogg's Asthma Remedy. Now he knows how needless has been his suffering. This matchless remedy gives sure help to all afflicted with asthma. Inhaled as smoke or vapor it brings the help so long needed. Every dealer has it or can get it for you from his wholesaler.

Prince Likes Small Houses

When the Prince of Wales takes up residence at Marlborough House he will occupy a small house within a house. He always objected to the size of Marlborough House, and alterations have been so carried out that his private suite consists of comparatively small cosy rooms, around which are the big state and reception rooms for visitors and state functions.

SO SHORT OF BREATH SHE COULD HARDLY DO HER HOUSEWORK

Mrs. Nelson Moore, Milford, Ont., writes:—"I had heart and nerve trouble, and became so short of breath I could hardly do my housework, and was so nervous every little sound I heard felt like a shock to me."

A friend of mine recommended

so highly I got a box of them and they did me so much good I got the second box, and now I am feeling like a different woman."

Heart and Nerve Pills are 50c. a box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SUNDAY SCHOOL LESSON

MAY 29

PETER UNDAUNTED BY PERSECUTION

Golden Text: "We must obey God rather than men." Acts 5:29.

Lesson: Acts 5:17-42.

Devotional Reading: Psalm 27:1-6.

Explanations and Comments

1. Peter and John Again Imprisoned Are Freed, verses 17-25.—"We cannot but speak the things which we saw and heard," had been the bold declaration of Peter when he and John were brought before the Sanhedrin (our last lesson). Upon their release they continued their preaching, and the people flocked to hear them. The jealousy and enmity of high priests and Sadducees were aroused, and they had the apostles again imprisoned.

"From bitterness preserve me Lord; From jealous thoughts protect my day."

Again the stroke of envy's sword Help me to hold my way.

And grant my soul sufficient grace, To gladden at another's prize, And look upon his eager face With sympathetic eyes."

Henry Robinson Palmer

Early the next morning the Sanhedrin learned that their prisoners had escaped, although the prison was found securely locked and the guards at the door. They learned also that the prisoners were preaching in the temple. Great was their consternation. What could be done with such defiant men who had an unknown ally to help them out of prison?

Diamond Jubilee Celebration

Some Suggestions for Guidance of Committees

The mayor or reeve should call a meeting to form a jubilee committee. The municipal council, educational authorities, representatives of churches, societies and other organizations should be included. The function will be to arrange programs for the celebration, and to appoint sub-committees to deal with such matters as finances, decorations, sports, parades, etc. Public buildings and streets should be decorated with flags and bunting, and citizens generally should decorate their homes.

A good way to get people together is to have a procession. Engage the local band and have the children join in the parade in which all societies and organizations should have a part. In the parades, floats portraying the history of our country should be included. If floats cannot be made, the young people might arrange historical tableaux, with suitable music. Veterans should also be requested to join the parades. Newcomers in all districts should be especially invited to take part; where there are old settlers, they should be especially asked to join in the celebrations. The flag should be flown in conspicuous place, and the procession should march past and salute.

There might be a picnic or other demonstration, with sports for the children. In the evening there could be a concert with fireworks and a community bonfire or other illumination.

As a verminicide, an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

Honor U.S. Members of C.E.F.

Canada to Erect a Memorial at Washington, D.C.

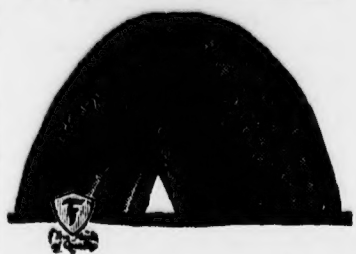

President Coolidge through the secretary of state of the United States, has forwarded to Ottawa an expression of appreciation of the plan recently approved by parliament for the erection in Arlington cemetery at Washington, D.C., of a memorial to Americans who served with the Canadian forces. For this purpose \$10,000 was voted and the expenditure has now been formally authorized by the government. The Imperial War Graves commission has also given its consent to the memorial will which take the form of the cross of sacrifice.

Mount Machray

Mount Machray, 9,929 feet high, is situated to the west of Grant Pass on the Alberta-British Columbia boundary. According to the Geographic Board of Canada, it commemorates the late Most Rev. Robert Machray, Anglican Archbishop of Rupert's Land and Primate of Canada. Archbishop Machray frequently spent his period of recreation in this district.

Keep Minard's Liniment in the house.

Engineered to Insure Dependability

The faith of thousands of tire users in Firestone Gum-Dipped Balloons is founded on exacting service—long mileage and dependability. Known as the pioneer of the Balloon—Firestone has consistently led in its development—using only the best materials and engineering to bring it to the highest point of reliability. It is only natural, with such a high quality product, that Firestone has attracted the best tire dealers in the country. Call your nearest one to-day.

Student Gains Distinction

Saskatchewan Medical Student Wins Honors in United States

A Saskatchewan student has won the distinction of coming out on top of the first part of the examinations conducted by the United States board of medical examiners.

Malcolm B. Coutts, 26 years, Assiniboia, writing in the examination with students from medical schools throughout the United States and Canada, gained first place, and the only Canadian in the first ten places. He is a son of Mr. and Mrs. R. D. Coutts, Assiniboia. His father is inspector of schools for the Assiniboia Inspectorate, and is at present stationed at the Regina normal school.

Simple and Sure. — Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old.

Breaking Western Rye Grass Sod

The highest yield of wheat obtained for the first and second years after breaking western rye grass sod at the Scott, Saskatchewan, Experimental Station, was obtained by breaking early in June and treating as summer fallow. Breaking in the spring and seeding wheat gave a considerably smaller yield per acre in both the first and second years. When it is desirable to take a crop of hay the year the land is broken, very fair results may be obtained by breaking in July and backseeding in September.

SPLITTING HEADACHE.

Minard's Liniment will bring quick relief. Rub the forehead—also inhale.

Engines, for boats and land use, new and used. Outboard motors also. Get lists. Guarantee Motor Co., 56 Market St., Hamilton, Ont., Canada.

Deafness, Head Noises, Catarrh. Simple treatment which gave permanent relief gladly explained free to any sufferer writing Henry Thomas, Andrew's Road, Deal, Kent, England.

ONTARIO BOY IS LEADING ORATOR OF THE DOMINION

Toronto.—Amid scenes of tremendous enthusiasm before a crowd of 10,000 people, Frederick Hotson, of Tavistock, Ont., Continuation School, was declared Dominion champion orator at the Arena here.

The judges announced their decision as follows:

1—Frederick Hotson, Tavistock, Ont.

2—Miss Shaone Landry, St. Adolphe, Man.

3—Miss Jean Cameron, Vancouver, B.C., and Walter D. A. O'Hearn, Halifax, N.S., were the other competitors, each of whom had won a provincial contest and represented their provinces in tonight's Dominion final.

The subject of the speeches was: "Canada's Diamond Jubilee: Her Achievements Since Confederation." The award for Mr. Hotson is a free trip to Europe this summer and the right to represent Canada at the international contest in Washington, D.C., this autumn, meeting competitors from Great Britain, France, United States, Japan, Mexico and the Hawaiian Islands.

The chairman was Right Hon. Sir William Mulock, Chief Justice of Ontario, and the judges were Chief Justice Latchford, John D. Falconbridge, K.C., dean of Osgoode Hall law school, and Professor Keys of the University of Toronto. Right Hon. Arthur Meighen had consented to act as a judge but he was confined to his bed with an attack of influenza and was unable to attend. The meeting was held under the direction of Dr. James L. Hughes, director for Canada of the Canadian and international oratorical contests.

The judges handed in individual judgments in which they marked the five contestants in the order of merit as each judged best. The marks were totaled and the winner declared. The judges, who were not sitting together, did not confer.

Dr. James L. Hughes before Chief Justice Latchford made his announcement of the result for which the crowd was waiting with breathless suspense, pointed out that each of the five contestants was 16 years of age and therefore would still be able to compete in the Dominion and international oratorical contests for another two years.

"If they do, the Lord help the rest of the world," he said.

Insane Drivers

Peculiar State of Affairs Reported From Detroit

Toronto.—According to a special despatch to The Toronto Globe from Detroit, an investigation held by the safety traffic department of the Detroit Automobile Club disclosed the fact that one third of the inmates confined for insanity at St. Joseph's Retreat, Dearborn, held automobile driver's licenses.

In a communication from the Dearborn chief of police to the Automobile Club, the official says that one inmate of the asylum constantly drives his automobile at a speed in excess of 45 miles an hour, believing that at this speed his motor runs upon the power of a foreign spirit. Similar instances were cited as existing menaces to public safety when many of the inmates of the institution were periodically returned to private life.

A state wide investigation to determine the extent of this situation in similar institutions has been opened by M. C. Bristol, of the traffic department.

Issue Liquor Permits

Toronto.—Issuers of permits to purchase liquor at Ontario Government stores—when they are opened—supplying 1,755 persons in Toronto with the slips the first day on which they were available. Seven offices were open throughout the city. There was nothing in the nature of a rush to obtain the permits.

Paris grocers who are making too much money on their wares are being penalized by police, who forbid them the right to show their merchandise on the sidewalks.

Duty on Buggies and Cutters

Manufacturers Say That Industry is on the Wane

Ottawa.—The rate at which new methods of transportation have supplanted the old was graphically illustrated before the Tariff Advisory Board, when a representative of Canadian companies manufacturing cutters and buggies appeared to oppose an application for a reduction in the duties on these vehicles.

In the year 1910 eleven large firms were manufacturing buggies and cutters, and one was manufactured in the Dominion that year for every ninety persons.

In the year 1926 two firms were manufacturing these vehicles and there was one manufactured for every 1,800 persons.

These figures were submitted to the board by E. Sweet, Brantford, Ont., appearing for the two concerns manufacturing the vehicles at the present time. He said that the industry had been referred to by the applicants for a tariff reduction as a "dying industry." The figures would seem to bear this out and the manufacturers would request that if the industry had to die, it be allowed to die in peace.

R. J. Deachman presented the application for decreased duties on behalf of the Consumers' League of Canada. He submitted that buggies and cutters were the transportation vehicles of the poorer classes and that tariffs were high when compared with tariffs on automobiles and motorcycles. He asked that this difference be removed.

A. E. Darby, Canadian Council of Agriculture, supported the application.

Assimilating New Canadians

Western Canada Provides Adequate Means for University Education

Toronto.—That western Canada has already solved its great education problem in providing adequate means for the assimilation of New Canadians, was the feeling expressed by Rev. Father McWiggin, vicar-general of the Roman Catholic diocese of Edmonton, here. Dr. McWiggin is in Toronto as official representative of Archbishop O'Leary, of that diocese, for the 75th anniversary celebrations of de La Salle College and the inception of work by the Christian Brothers.

"Education is the one thing the young westerners yearn for most," said Dr. McWiggin. "Education in Alberta has been brought to a high plane and we are working in the utmost harmony. It is no longer necessary for western youth to come east for professional teaching. The University of Alberta now provides complete and able facilities in arts, medicine, dentistry, agriculture and education."

Crossed Niagara Gorge in Basket

Niagara Falls, N.Y.—Mrs. Elvira Hulst Gates, the first woman to be carried across the Niagara Gorge in a basket that hung from a cable stretched between the Canadian and American shores in early village days, is dead aged 85. The primitive method of travel before the bridges were constructed was an invention of Mrs. Gates' father.

Close Montreal Dairies

Montreal.—In an effort to stop the spread of typhoid fever, in Montreal, which has been prevalent here recently, two milk supply concerns in Montreal were ordered closed by Dr. A. Lesard, director of provincial bureau of health, here. The action was taken under the Quebec Public Health Act.

Guests of French President

London.—King George and Queen Mary were guests of honor at a banquet of President Doumergue, of France, who is on a visit to Britain. The French embassy, where the banquet was given, was lavishly decorated. One hundred guests were present, including ambassadors with their wives and numerous members of society.

Buys More From U.S.

Ottawa.—Canada is buying more from the United States. During the 12 months ending March, imports from the United States were \$688,000,000 against \$619,000,000 in the previous year. Exports were \$466,000,000, a decline of eight millions.

PROVINCES PLAN CONFERENCE TO BE HELD IN FALL

Victoria, B.C.—The last week in September and the first week in October have been suggested by the British Columbia Government as the best time for holding the interprovincial conference planned by the federal government for this year.

This suggestion was advanced by Hon. J. O. MacLean, acting premier, in reply to a communication from Hon. Fernand Rinfret, Canadian Secretary of State, who is making arrangements for the gathering of representatives from all parts of the Dominion to discuss interprovincial relations.

Mr. Rinfret has informed Dr. MacLean that the federal authorities will prepare an agenda for the conference on the basis of suggestions from the provinces and forward it here as soon as possible.

Strawberry Yield Lighter

Increase in B.C. Acreage But Decrease in Ontario

Ottawa.—The commercial bearing acreage of strawberries in Ontario for 1927 is placed at 1,390 acres by the Dominion Fruit Branch, practically the same as last year. The principal commercial districts are as follows: Burlington, 700 acres; Niagara, 300; Norfolk, 100; London and Sarnia, 150; Prince Edward County, 780; other districts, 40.

Last year the commercial production in these districts was placed at 3,992,500 quarts. Bearing conditions of the plantations in the Clarkson and Norfolk districts this year range from 10 to 25 per cent. less than last year. This condition is attributed to the small runner growth produced last season.

Last year British Columbia claimed 1,225 acres, with a total yield of 3,920,000 quarts, while this year the bearing acreage is placed at 2,012 acres, which, based on normal production, should produce 6,126,000 quarts.

New Depot for Edmonton

Winnipeg.—Announcement was made by W. A. Kingsland, general manager of the western region, Canadian National Railways, that the contract for building the new station at Edmonton, has been awarded to the Permanent Construction Company, Edmonton. Work on the new structure will commence immediately.

Ramsay MacDonald Ends Visit

New York.—J. Ramsay MacDonald, former Prime Minister of Great Britain, sailed for home on the Cunard liner Berengaria May 17, ending his second visit to America, made to return with his daughter Isabel to the scenes of his honeymoon visit 30 years ago.

British Legion Settlers Arrive

One of the finest single parties to swell Canadian population this year, arrived in Canada recently at Quebec aboard the Canadian Pacific steamer Montrose. The party of five families numbering 100 persons in all came to Canada under the auspices of the British Empire Service League, being the first to be sent to Canada through this immigration scheme.

The men are all ex-service veterans and are highly desirable types of settler on account of the fact that all have been trained in farm work at the Ministry of Labor's Training Farm at Brandon, Suffolk, England. They have been instructed in various branches of agriculture to enable them to meet conditions in this country as they find them.

The above photograph was taken at the C.P.R. station in Winnipeg and shows a number of this party waiting for the train that will carry them farther west to their new homes in Saskatchewan.

Robbery Is Frustrated

Winnipeg Police Take Into Custody Several Suspects

Winnipeg.—Within a few days Winnipeg was to have been the scene of a bank robbery, but a police raid frustrated elaborate plans alleged to have been made by a gang of local bandits, and five men are now charged with conspiracy to rob. Two other men are held as members of the gang, while several material witnesses are said to be in the police cells, although information concerning them has not been divulged.

The arrest of the gang follows a sweeping investigation of underworld hangouts in the city, during which scores of men known to the police were questioned. The robbery of the bank, according to the police, had been planned for April 22. On that date five men, armed with revolvers, drove in an automobile to a branch bank in the west end of the city. The presence of two men on bicycles, whom the bandits took for police officers, frustrated the robbery, but plans for a new attempt had been drawn up.

Fleet Will Watch Boundary

Ottawa Orders High Speed Boats to Patrol East Coast

Ottawa.—A fleet of more than twenty vessels, with a speed in some cases of about 30 knots, has been commissioned to patrol the coast line along the Maritimes in an effort to combat smuggling.

These vessels will be supplemented by 20 or 25 high-powered automobiles operating from strategic points where roads meet in Nova Scotia, New Brunswick and Prince Edward Island.

Official announcement to this effect has been made by the Department of National Revenue.

Fewer Jobless in Britain

London.—For the first time since the general strike which occurred early in May, 1926, the unemployment figures for Great Britain are now below the million mark, being 998,000, or 25,000 fewer than a year ago. The improvement in employment is most noticeable in the iron, steel and engineering industries. There is still depression in the coal fields, however, and four mines in South Wales are closed temporarily.

Trade Increase During April

Ottawa.—Canada's trade continues to grow. Increase in April exports was greater than in imports, when comparison is made with April of last year. Total trade increase was \$24,000,000, divided:

Exports, increase, \$17,000,000.
Imports, increase, \$7,000,000.

U.S. Envoy Coming

Washington.—Hon. William Phillips, newly appointed minister to Canada, will go to Ottawa the last of this month to present his letters of credence, he informed President Coolidge.

CADET SYSTEM OF TRAINING IS ABLY DEFENDED

Ottawa.—It is the duty of a country which compels its manhood to serve in the hour of need, to provide some system of training, so that they may not be called upon to do something they know nothing about," declared Major General J. H. MacBrien, retiring Chief of Staff, in his farewell message to Ashbury College cadet corps, at the annual inspection here. His address was a defence of the cadet system in Canada, recently subjected to attack.

The law of Canada requires that all males between the ages of 15 and 45 or 50 should serve in time of war, General MacBrien said, although this was not generally known. It therefore was the duty of Government to provide a system for training men to be prepared. The cadet system was a beginning for preparedness.

Cadet training developed the spirit of co-operation which served all well in every course of life.

Airplanes Will Spray Rust-Infected Fields

Experiments With Sulphur to Be Started in July

Ottawa, Ont.—The department of agriculture has completed purchase of a large amount of sulphur to be used in spraying rust-infected grain fields in the Red River Valley.

The spraying is to be done by aeroplanes of the Royal Canadian Air Force and the work will be commenced early in July, according to Dr. J. H. Grisdale, deputy minister of agriculture, who discussed the prospects of the experiment. The use of sulphur, he said, had been found beneficial in the United States, although the spraying was a very dangerous operation on account of the necessity for low flying.

If the experiments prove a success the department will carry out a large programme next year, he said.

Given Speed Trials

British Cruiser Berwick Develops Over 80,000 Horse Power

London.—The British cruiser Berwick, laid down in September, 1923, and the first of her class to be completed, was given her high speed trials Tuesday. For eight hours she was driven under full power. The propelling machinery developed over 80,000 horse power and the cruiser maintained a speed of between 32 and 35 knots.

Four other vessels of the same type were provided for under the 1923 estimate—the Cornwall, Cumberland, Kent and Suffolk. The ships are of the 10,000 tons standard displacement established by the Washington naval treaty.

Will Attend Celebration

Kitchener, Ont.—Sir Hugh John Macdonald, Winnipeg, son of Sir John A. Macdonald, first Premier of Canada, has tentatively accepted the invitation of the City of Kingston, his birthplace, to attend the diamond jubilee celebration here. Sir Hugh John intimated that his health is not good just now but he is hoping it will be so improved that on July 1 he can attend the celebration and greet the many old friends he has here.

Oxford Students Protest

Oxford, England.—Hundreds of Oxford undergraduates were lined up for their turns at a trip to an aerodrome, at the aviation field, when protesters appeared and ordered them off the field. The students protested at being forbidden to fly and the protesters took many names. It is reported that many disguised themselves as workmen and made flights later in the day.

Russia Sending Delegation

Ottawa.—The United States of Soviet Russia, in other words the Soviet Republic, is sending a delegation of some thirty persons to the World's Poultry Congress to be held in Ottawa from July 27 to August 4. These will include the official delegates and some five or six representatives from the country at large.

Space Will Be Annihilated When Canada's Jubilee Program Is Broadcast Around the World

The most ambitious "be-up" of radio stations ever attempted and the longest remote broadcast ever undertaken in the radio world is being arranged for by a committee of experts in connection with the forthcoming celebration of the Jubilee of Confederation.

The plans contemplate an annihilation of space which borders on the supernatural. In brief it is the hope of the committee that the carillon bells of the peace tower of the Canadian parliament buildings, and the message of His Majesty in reply to the playing of the National Anthem, will be heard practically all round the world. The speed of radio transmission is 186,360 miles per second, so that in every portion of the globe, where it is possible to hear, the sound will be practically simultaneous.

It is anticipated that the first broadcasting programme from Ottawa will start at 4 p.m. on July 1 (10 p.m. in England.) The programme will be relayed over telephone wires to Drummondville, Que. Thence it will be transferred across the Atlantic by the Marconi beam, picked up at the receiving station in England, and thence sent by telephone lines to London where it will be distributed by the stations of the British Broadcasting Corporation through Great Britain and Europe.

The King's message to Canada will follow the same route reversed, but instead of coming to Drummondville it will come by Marconi beam to the receiving station at Yamaska, Que., 60 miles from Drummondville. Thence it will be relayed by telephone lines to Ottawa where radio station CNRO will be the key station for distribution both ways throughout the Dominion and the United States.

It is possible to amplify the voice as it comes over the telephone lines up to 1,750,000 times. From Yamaska the message will leave at a certain level. Due to line resistance it will drop as it proceeds. At Montreal it will be "stepped-up" by means of amplifiers, and throughout the Dominion similar means will be employed to cope with the drops. At Ottawa the messages will be taken up and the system split by the various other stations at Toronto, Montreal, Halifax, Winnipeg, Calgary, etc., which will serve by relay outside districts not within sound of the station.

From London to Vancouver is one-third round the world. From the time His Majesty speaks until his voice is heard only 3-100ths of a second will elapse.

In the event of the Australian Marconi beam being completed on July 1, the King's message, received at Yamaska, and relayed sixty miles to Drummondville, will be heard at Canberra practically the same moment as it is heard at Ottawa.

Depth of Ploughing Summer Fallow

Ploughing to Depth of Four Inches Gives Good Results

Ploughing to the depth of four inches for summer fallow has given better results than ploughing to any other depth. In experiments conducted during 11 years at the Scott, Saskatchewan, Experimental Station. In these experiments the summer fallow was ploughed in June from 3 to 8 inches deep, and the deepest ploughing has resulted in the lowest average yield for the first crop after fallow. The 10 years average yield of the second crop after fallow shows that 4-inch ploughing for summer fallow followed by 4-inch ploughing of the fallow stubble has given the most profitable yield. Ploughing 4 inches in June and backsetting 6 inches in September has given 3.3 bushels per acre more for an 11 year average than was obtained by any other method of backsetting tested, and 3.2 bushels more than the highest yield obtained by ploughing once.

Traveller (as train stops): Well I have time to get a drink here.
Conductor: Yes, sir.
Traveller: Are you sure the train won't start without me?
Conductor: Yes sir. I'll take one with you.

Electric Walls Make Bank Impregnable

Elaborate Alarm System Installed in Rebuilt Bank of England

Defences such as fortify no other place in England are included in the rebuilding of the Bank of England. It will be possible, in case of invasion or other emergency, to lock the vaults from three points — one in the Bank, one elsewhere in London, and one ten miles out of London. The walls are constructed of reinforced concrete blocks, six feet long by two feet wide by two feet thick. The reinforcement is made from old steel wire ships' cables, which are separated into single strands. These steel wires are interlaced into panels six feet by two feet, and placed in the mould, one on top of the other, until the mould is full of steel-wire matting. Liquid concrete is then poured in the mould, and the whole is shaken to work the concrete into every crack and corner. All these concrete blocks have "keys" at each end to interlock them when in position. There are also semi-circular grooves at the ends of the blocks. Two blocks together form a circular groove up and down which pass electric wires. An attempt to displace a block breaks these wires and an alarm is immediately sounded.

Winnipeg Newspaper Union

Smartly Simple

This one-piece slip-on dress is both practical and attractive, and would be very chic if made of bordered material or plain flannel. The fitted collar, one-piece tight-fitting sleeves and tailored belt with buckle are of the latest mode. No. 1162 is for ladies and is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 requires 2 3/4 yards 54-inch bordered material; or 3 3/4 yards 36-inch plain. 29 cents.

The secret of distinctive dress lies in good taste rather than a lavish expenditure of money. Every woman should want to make her own clothes, and the home dressmaker will find the designs illustrated in our new Fashion Book to be practical and simple, yet maintaining the spirit of the mode of the moment. Price of the book 10 cents the copy.

Mussolini Enters His Wheat for Prize

Plowed and Sowed Field and Grain Is Doing Well

Undaunted by the cares and worries of seven ministers' jobs which he now holds, Mussolini has set himself to gain fame as a raiser of prize-winning wheat. It was learned that he has entered a small farm he owns near Forlì in the wheat raising competitions promoted by the Minister of National Economy.

The wheat on which the Premier bases his hopes of victory was planted by him personally. During one of his periodical visits to his own town he plowed his own fields, steering an old-fashioned plow drawn by two huge snow-white oxen. On the back of one of them his young son Bruno sat perched, while the shutters of the numerous cameras which dog the Duce's every step clicked busily. After sowing the wheat Mussolini returned to Rome, leaving the care of his farm to one of his peasants. The wheat sown by Mussolini has done so well that it is now considered the best of the whole region.

The Ministry of National Economy distributes each year cash prizes to farmers whose average yield of wheat per acre shows the greatest percentage of increase over the average yield of the surrounding district. The prizes have hitherto been handed to their winner in Rome by Mussolini himself with much pomp and ceremony.

Poultry for Profit

Manitoba Farm Boy Has the Right Idea

Jackie Ross, a farm lad of the Oatfield district, north of Winnipeg, has found that raising poultry can be made to pay. A year ago he decided that his flock of hens required building up. He had heard of the returns obtained from Manitoba approved flocks, and wrote to A. G. McCulloch, Dominion poultry promoter, for help in getting a more profitable poultry flock. His start was made with hatching eggs from a Manitoba approved flock, and some record of performance chicks. Though his flock did not reach over 100 birds at the height of the season, he now reports an income of \$420 from his experiment. Fifty trap-nested hens made a record of 20 eggs during March and the balance 21. One biddy laid an egg every day.

The British Empire

The British Empire is seven times as large as the Roman Empire at the time of its greatest extent, under Trajan. It is four times the size of the United States proper. It would make 65 Germanys. It has increased by about 1,000,000 square miles during the last 50 years.

Interesting Statement Made That At Last "Mummy Wheat" Has Been Made To Germinate

Enraged Poles Smash Radio

Believed It Responsible for Rains Which Affected Their Crops

Polish farmers near Vilna have attacked the district school teacher because they believed his radio responsible for the drenching rains that have ruined their prospects for a bumper crop.

Only the devil's voice could be made audible by such an infernal machine, they said when the teacher exhibited his newly acquired apparatus. The music which emanated from the devil-devised instrument was not what they were accustomed to hear in singing school and church, and the weird syncopation was probably produced by the rulers of Purgatory to torment lost souls they avowed.

After beating the teacher they smashed his radio set to bits. The discouraged pedagogue predicts that this part of Poland will develop to the point of having a court action over the Darwinian theory in about the year 2127.

Preserving Fruits and Vegetables

Instructions for the Proper Storage of Canned Products

The storage place for home preserved fruits and vegetables should be cool, dark and dry. Heat favors the growth of bacteria, light causes fading, while dampness furthers the growth of moulds and even causes rust on the metal fastenings of the glass jars. There are other pointers for the housekeeper are given in a new bulletin of the Dominion Department of Agriculture on Preserving Fruits and Vegetables in the home. When dark storage is not available the jars should be wrapped in paper to exclude the light. When canned vegetable products are removed from the jar after storage it is a wise precaution to boil them a few minutes. When they are to be used cold, as for salads, they may be set aside after boiling and chilled before use.

Has Become Discouraged

Tamatave one of the principal ports of Madagascar, having been swept by its 100th cyclone in a century, probably will stay in ruins. Shipping companies are urging that a less susceptible harbor be developed.

Tests completed recently demonstrate that hemp for fibre can be grown very successfully in many parts of Canada.

Tractors Vie With Horses

Old Dobbin is going to have a much easier time of it this year on a good many Saskatchewan farms when the solid train-load of tractors seen in the above photograph is distributed in that province.

Tractors hitherto have been shipped in considerable numbers to western farmers, but seldom if ever before has such a large single shipment gone forward. This trainload was handled recently by the Canadian Pacific Railway.

Whether or not tractors will come to replace the horse altogether in the west is doubtful, but many reports have been heard to the effect that a farmer using these machines is always a jump or two ahead of his neighbor.

Wheat is of very ancient origin, having, indeed, been cultivated by prehistoric peoples such as the Lake-Dwellers of Switzerland. It is mentioned in the earliest writings and samples, substantially similar to modern varieties, have frequently been found in a fair state of preservation in Egyptian and other tombs dating from a remote period. The Egyptian variety especially, known as "mummy wheat," has been the subject of much speculation and experiment, but hitherto all efforts to procure its germination have been baffled. Hence the great interest aroused by the recent announcement that "mummy wheat" has at last been grown in the state of New South Wales, Australia, and the intimation that the report will be made the subject of expert investigation. If correct, the fact will entirely upset the theory of many scientists that wheat grains could not retain their potential fertility for so long a space of time as three or four thousand years.

Doubtless wheat keeps its form for an inordinate number of years and is easily recognizable, as witness the grain attributed to the Stone Age in Europe, some 6,000 years older than the mummy wheat said to have been grown in Australia. But the more skeptical scientists have always held that the husk and the search are the long-enduring elements and that the tiny germ, the repository of life, quickly loses its vitality. Even when kept under the most favorable conditions, they allowed the toughest grains only fifteen years, the majority becoming infertile within five years.

All the weight of authority is, therefore, on the side of the statement that in no single one of the numerous experiments has mummy wheat germinated. The very oldest seed—and that an oily and case-hardened kernel—known to have germinated is only a hundred years old, and has just celebrated its centenary. Nevertheless, it is argued on theoretical grounds that if air were totally excluded, no reason exists why the germ should die any earlier than lichen, which seems to have an infinite capacity for living in suspended animation, or the very long-lived charlock and poppy seeds. So far as wheat in England is concerned, it is said that any form of damp kills the wheat grain within a year or two. It is reckoned, according to actual experiment, that, if not purposely sown, wheat would totally vanish as a British plant within four years.

Among many interesting discoveries made recently as to the nature of the early wheats, we are told that the most important was the finding of a true wild wheat in Palestine by a member of Lord Allenby's expeditionary force. The home of this plant, that has led and created civilization for perhaps 10,000 years, has been traced to Western Asia with a reasonable degree of certainty.

It has recently been alleged, says an article on the "mummy wheat" reported to have been grown in Australia, that a native rice plant has been found in Australia; and the inference has been drawn that if the natives had been botanists the population of Australia would now be reckoned in tens of millions.

If after expert inquiries it comes to be shown that wheat can preserve its life after thousands of years, independently of its agricultural interest, there will be a field for much interesting speculation as to the existence of the germ of life.

Christian missionaries in their work among the Hindus find it difficult to explain the killing of the fatted calf—the only thing in the four Gospels to which nearly all Hindus take exception. This is because the cow is regarded by them as sacred.

The majority of us would have to work twenty-four hours a day if we were to love our neighbors as they love themselves.

Cook Vegetables by Steam

Great doctors the world over agree on one thing anyway, and that is "If you want to be healthy, cook all vegetables by steam!" It's real advice.

Steaming cooks the food and leaves all

SMP vegetable COOKER

the health-giving contents undisturbed. For health's sake there should be an SMP Vegetable Cooker in every pantry. Made of enduring, china-pure SMP Enameled Ware, by

CHAPTER XXXVI. (Continued)

The letters died away. The second witch arose and danced before the girl against the pillar. The glimmer from her lantern bathed the white form in scarlet, and new letters glowed in the sky—"DISTRUST."

The guests of Joanna stirred in their seats and settled again into tense, breathless silence. The third witch danced and held aloft her light. The figure in the market place took on a hue of green. New letters formed: "ENVY."

Yvonne, who had stared fascinated at the unfolding of the tableau, suddenly was conscious of a breath on her bare shoulder. She looked around and peered into the fixed eyes of Brandon. Around his forehead a bandage shone white. He stood beside the vacant chair into which he had intended to drop quietly. Yvonne watched his lips and saw them frame the whispered words—the words he remembered as Joanna's plaint to Eggleston, long ago, in the sombre library of the house on the Avenue when she told the banker of the three things that had haunted her in her coping with the problems of the girlhood of today—"Misunderstanding, Distrust and Envy."

Brandon was so tightly wrapped in the spell of his memory and this amazing reminder staged by Joanna with her troupe of actors and actresses especially brought from Paris, that Yvonne reached back and touched him to bring him to a realization of his surroundings. He brushed his hand across his eyes and dropped into the vacant chair.

"I am just in time," he remarked "to witness the sensation she arranged secretly. I fancy it will be most interesting."

Yvonne studied him a moment and then turned back to the scene on the stage.

SICK ABED EIGHT MONTHS

After Taking Lydia E. Pinkham's Vegetable Compound Could Do All Her Work and Gained in Weight

Melfort, Saskatchewan. — "I had inward troubles, headaches and severe pains in my back and sides. I was so sick generally that I could not sit up and I was in bed most of the time for eight months. An aunt came to visit and help me as I was unable to attend to my baby and could not do my work. She told me to try Lydia E. Pinkham's Vegetable Compound, and after taking two bottles I could get up and dress myself. I also took Lydia E. Pinkham's Blood Medicine. When I first took the medicine I only weighed seventy-eight pounds. Now I weigh twice as much. If I get out of sorts or weary and can't sleep I always take another bottle of the Vegetable Compound. I find it wonderfully good for female troubles, and have recommended it to my neighbors. I will be only too glad to answer any letters I receive asking about it."—Mrs. WILLIAM RITCHIE, Box 486, Melfort, Saskatchewan.

W. N. C. 1692

The three witches danced away into the background. Out of the crooked streets of the make-believe city other shapes were coming down into the open space—fantastic shapes, with empty faces pallid white with chalk, ghastly, grotesque. On the small stage it seemed as if there was an army of them, the population of the city they sprung from.

Brandon started so violently that Yvonne and Kenilworth shot a glance at him. When they looked back upon the stage they saw why. Unquestionably he was among those grotesque figures, for one of them walked with exaggerated grace and his head was bandaged!

And just then, as if a common realization had swept over the men and women, the puppets and mannequins, the pierrots and Columbine in the audience, there was a sibilant sound of pent-up breath escaping hundreds of lips. Almost every one of those who had come to the revel of the Golden Girl recognized, in one of those weird, white-faced figures on the stage—himself or herself!

Betty Weymouth saw that Joanna had caricatured her. Prince Michael saw himself, as surely as Brandon had recognized the graceful form in the bandage. John, who stood at the back of the pavilion saw a masque of himself. Everyone else saw something of his or her representation in the silent city's inhabitants as they trooped down into the market place around the almost nude girl who leaned against the column in the center.

The girl raised her head and shook the long strands of her billowy corn yellow hair. When she saw that the witches had faded away from her, and that she was among the people of the city—the people if the world in which she found herself, her body straightened. The orchestra burst into a joyous rhythm. The girl leaped into the throng of masques and danced among them—danced gaily, her filmy draperies flowing in utter abandon.

"Watch the witches!" Brandon murmured. He spoke to himself, but Yvonne and Kenilworth nodded in acknowledgment that the thought had come to them, too.

A little company, in the masques of morose solemnity, assembled at one side of the stage. Up to them and around them the girl danced ecstatically. They swayed back and forth in time with the young feet that seemed to dance as if slipped with quick silver. A note of mournfulness crept into the music. The girl danced slowly, more heavily. The witch with the yellow lantern, "Misunderstanding," fell into step behind her. The girl shrank; relentlessly the evil which pressed upon her. An eerie lamentation shrieked from violas and reeds; slowly, mercilessly, "Misunderstanding" drove the lovely girl back to the pillar.

Again the dancer escaped her baleful guardians and moved merrily, hopefully, carelessly. She was driven back from the group that gathered around her, by "Envy." A third time she tried to spread her rhythmic doctrine of carefree youth and grace and vividness, and again—

In the audience a woman uttered a half scream, half moan. Another woman rose to reach over to her. A man stood. In an instant the puppets and mannequins, the pierrots and Col-

umbines, were on their feet. Many faces were as white as those of the mute characters on the stage. Now the three witches, all of them, were bearing down upon the girl who fought valiantly to overcome the misunderstanding, the distrust, and the envy of those white-faced people who stifled her.

The music quickened. The girl, in a panic, sought to flee. The witches penned her in and drove her, step by step, while the silent masques circled and swayed monotonously, back to the water-tight post. The orchestra burst into a discordant crescendo. The dancer, helpless, discouraged, backed against the pillar and flung out her arms in mute appeal. The witches raised their lanterns in hideous glee. The green, yellow and scarlet rays pierced the filmy covering of the young body and bathed it in a mellow glow. And by some weird trickery of a hidden electrician the rays from the lantern of Misunderstanding, Distrust and Envy made a shadow against the city, a shadow black as night—the shadow of a cross.

This time it was Yvonne who whispered softly: "Crucified by those who don't know!"

With a common impulse Yvonne, Kenilworth and Dominsten, and even Betty Weymouth, made their way through the silent, thoughtful throng of departing guests, to the door that led onto the pavilion stage—the door through which Yvonne had seen Joanna disappear before the actors began their play. The director of the company of performers shook his head.

"Made-moiselle left with me the money to pay my troupe, and then went away," he said. "She was most generous, and we would speak more of our gratitude to her but she is not here."

John, his face as white as had been those of the actors, appeared out of the dark of the grounds. He confronted Yvonne.

"We must find Brandon, quick!" he exclaimed. "She has gone. I went to the house to wait for her. I wanted to say—a great many things. Your butler told me she left alone in her car. There is a message, he says, for Brandon."

The horns of the automobiles, in which the guests at Villa Amette were starting for their homes and their reflections upon the amazing climax with which the Golden Girl had revealed them to themselves, echoed up from the sea road. John, Kenilworth, Dominsten and Yvonne hurried to Joanna's little sitting room. Martha, Cecile and Marie, Joanna's maids, with wonder and shock in their faces, met them. Martha led Yvonne into the gorgeous bedroom and pointed to a glittering mass of jewels, every ornament from her mistress' gem case, piled on the

brocaded sash covering in her hand Martha held an envelope. Her fingers shook as she handed it to Yvonne.

"She said it was for Mr. Brandon," the maid exclaimed. "And she said I was to say there would be nothing more, ever!" Martha lost her fight to keep back her tears and her eyes suddenly swam with them. "She's gone, m'm'am!" she cried. "She said somebody was taking her money away from her because she was too old-fashioned inside!"

One of the supremely modern young persons whose left hands spread varicolored weaves on the silk counter in the great department store called to her companions on either side of her.

"Watch your step, children! Good Morning is coming!"

Mr. Harkness, the Buyer, sleek and self-sufficient as ever murmured soft apologies as he edged his way through the crowds before the counter to summon with his eyes, the girl with the shimmering gold brown hair. His manner was gentle, strangely respectful. His tone was almost deferential.

"You are to get your wraps, Miss Twenty-seven, that is to say, Miss Joanna! It is Mr. Graydon's request. You are to go in his car to this address on the Avenue!"

He handed Miss Twenty-seven with her old number in her old job the slip of paper on which he had written the directions given him by The Old Man's quiet secretary. When she read, the shadow came into her face, and something of dread. She had written a long, very long letter to this same address, to Andrew Eggleston. She had hoped she'd never have to face him. But she turned away, with a "thank you!" for Good Morning, and went to get her cloak, and to the subway.

In the big, solemn library in the house of Andrew Eggleston, on the Avenue, where Joanna once had spent the long hours of an afternoon with the blueprint she had filched from John's rooms spread between her and the banker, a remarkable company was gathered.

Graydon, his gray face alight with tender excitement, repeated to a man of his kind who stood apart with him, the thing he had said over and over again to everyone in the room.

"And she came back, her skirts as scant as ever, her lips as red and her hair was imperceptibly short. If there was any change at all it was in her eyes. They were just as brown and shining but, somehow, they gave the impression that someone had looked very deep in them into their very depths, perhaps."

"And she asked if she might have her job, and her number, and gave me back her bank book—with nothing in it—and asked if I'd send it back to old Eggleston, here, and save her the trouble of sending him. When I asked questions she said, simply: 'I learned a lot—that wasn't good to know. I want to forget it!'"

(To Be Continued.)

No matter how deep rooted the corn may be, it must yield to Holloway's Corn Remover if used as directed.

Little Helps For This Week

Yes, I have loved thee with an ever-lasting love; therefore with loving kindness have I drawn thee. Job xxxi. 3.

O Soul, rejoice! Thou art God's child indeed, for all thy sinning; A poor weak child, yet His, and worth the winning With Saviour eyes and voice. —George MacDonald.

Just as a mother would not love a child the better for its being turned into a model of perfection by one stroke of magic, but does love it the more deeply every time it tries to be good; so I do hope and believe our great Father does not wait for us to be good and wise to love us, but loves us, and loves to help us in the very thick of our struggle with folly and sin. Juliana Horatia Ewing.

Game Trout in National Parks
The waters in the Canadian National parks in western Canada offer splendid inducements to the angler. Five varieties of game trout have their habitat in the waters of the parks, namely: cutthroat, lake, Dolly Varden, bull and brook.

Treat corns with Minard's Liniment.

Constipation Ended

Restore your energy, get rid of indigestion and dyspepsia, feel ten years younger, by making the bowels and liver active with Chamberlain's Tablets. Fifty in a Bottle 25c

Fast Cable Transmission

Cable Message Flashed Around the World in Eight Minutes

All records for fast cable transmission were smashed when a United Press cable dispatch was flashed around the world in eight minutes, and sent around South America in seven minutes.

The cable messages were sent from Columbia, Mo., where the University of Missouri was giving a United Press dinner, relayed on a United Press wire to New York and thence rushed around the world, and around South America, from one United Press bureau to another.

WHY TORTURE THE LITTLE ONES

Mothers, do you think it fair to torture your little ones by forcing them to take irritating oils when they need a laxative medicine? Don't you find that the child's dread of these medicines often do more harm than good? Baby's Own Tablets are the modern substitute for these nauseous doses. They are the very medicine the child requires and are so pleasant to take that they are as easy to administer as a glass of water. They are the perfect remedy for all the minor ailments of little ones, being absolutely guaranteed from injurious drugs.

Baby's Own Tablets accomplish all that castor oil and other bad-tasting remedies can do. In fact they accomplish more as they do not leave the child exhausted from its struggle against taking medicine. They relieve teething pains, banish indigestion and constipation, break up colds and simple fevers and promote healthful, refreshing sleep. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Was a Good Investment

Alaska, bought by the United States from Russia in 1867, has in the last 60 years yielded 182 times the amount paid for the territory. Salmon, gold, copper, furs, halibut, herring and cod are the principal products in the order of their importance.

Troubled with Lamé Back for Over 17 Years

Now feeling fine as a fiddle

Harry H. Buss of Egmont, B.C., suffered from a lame back for over 17 years. Every spring he was laid up from work. He tried many remedies, but could not obtain relief. He was advised to try Gin Pills and immediately obtained relief. Read his letter:

"There is nothing to compare with Gin Pills. I suffered unceasingly with a lame back for over 17 years. I tried almost everything, even to hot poultices. I could not sleep. After taking two and a half boxes of Gin Pills I am at work again and feel fine as a fiddle. I will not be without Gin Pills from now on. I am telling everyone in this settlement who has kidney or back trouble to give Gin Pills a trial. Publish my letter as I would like others to know what great relief Gin Pills gave me."

Pains in the back, constant headaches, swollen joints, painful urination, murky urine, brick dust deposits, scanty or too frequent voiding of urine are all symptoms of kidney trouble. Relieve your suffering and ensure a future free from kidney ailments. Get a box of Gin Pills today. 50c at all druggists. National Drug & Chemical Co. of Canada, Limited, Toronto, Canada.

A Paramount picture of love and adventure. Full of the modern thrills and escapades of the life of this generation.

Don't fail to see
this great attraction.

Here and There

Hamilton's air port comes into operation May 1st. The property used is four hundred acres in extent. A large hangar is being constructed and the old homestead on the property will be remodelled as an aviation boarding school.

Swalwell

We are pleased to report that Mrs. S.R. Tilley is making good progress after her operation and trust that same will continue.

After a vote of the congregation on Sunday last the time of service will remain the same (11 a.m.)

Mr. and Mrs. R. Shreeve and family motored to Rimby on Monday and expect to be away for a day or two.

Mrs. Tilley is back on duty again after being in Calgary for a few days.

The Swalwell U.F.W.A. are putting on a dance in the Grainger hall on Friday night with a five-piece orchestra supplying the music. A big crowd is expected so come early.

The Swalwell local of the U.F.W.A. held a business meeting in the rest room last Saturday.

Mrs. Roy Wacker arrived over the week end and is visiting with her parents, Mr. and Mrs. W. R. Gire.

The Ladies' Aid met this month at the home of Mrs. O. Gore.

Mr. Howard Hunter was a visitor to Calgary over the week end.

Gamble Items

Miss Jean Anderson of Hanna, is spending the holidays at her home here.

Mr. and Mrs. Robt. Belle, formerly of Carbon and now of New York, are spending the summer in Ireland.

The Gamble Ladies' Aid meet at the home of Mrs. Anderson on Thursday.

Canada is sending increasing supplies of tobacco to the West of England, according to the Trade Commissioner at Bristol. One organization has built a factory in Ontario, have their own buyers, and are packing the leaf, Canadian Burley, to suit the English trade. Consumers in England are getting used to Canadian tobacco and with the Empire preferential duty, which amounts to 48 cents per pound less than the duty on foreign tobacco, increased quantities of Canadian Burley will find their way to the United Kingdom.
